

Use the information from the lecture demonstrations, textbook, and [www.w3schools.com](http://www.w3schools.com) site to create the **index.html** file that describes the page like the one shown below. The page should be formatted as shown and use the Arial font style with size 20. The page background color is rgb(1,77,93). The page should also link to the three wiki pages for apples, grapes, and pears. Upload to your H: drive homepage folder and publish the page to the UM-Flint web server.

<http://en.wikipedia.org/wiki/Apple>

<http://en.wikipedia.org/wiki/Pear>

<http://en.wikipedia.org/wiki/Grapes>

Points	Task
10	Your index.html uses a table as shown in screen shot above.
25	Uses both relative and absolute paths to images of fruit.
15	Uses color, font, and position formatting shown in screen shot above.
25	Your index.html file successfully links to the three URLs given.
25	Your index.html is successfully published to the UM-Flint webpage server.
